

Global Decree – Postmaster General Judge

Hosted by Ginger's Liberty Lounge on October 23, 2024

This is Ginger of the Liberty Lounge, and it is October the 23rd, 2024. It is a very exciting session we're going to have with very, very esteemed guests who have sought for the freedom of the world and all of humanity for years. And it's happening, family. We are here at the apex. We are here together at the climax of it all, so we're going to just start with a brief word of prayer to give this time over to God to lead our discussion. And then I'll walk you through how our conversation will go tonight.

Dear Heavenly Father, we're needy people and we come before You. You're exalted, and we honor You, our Omniscient Creator, our sovereign God, the Creator of all that is, Who spoke the world into existence, that is You Who breathed life into every living creature, and You love us so much, and You want Your people free. We exalt You, and we declare our need and our dependence on You for Your protection, for Your direction, and Your righteous calling, and I pray, God, that You would use my heart, my mind, my spirit as a conduit to speak Your truth to Your children. In Jesus' Name, I pray that the thoughts that I think and the words that I speak and the intent of my heart would be pleasing to You, God, and a sweet-smelling sacrifice. You are exalted in all Your ways, and we yield ourselves to You, Abba, Father. And I praise You for the interweaving of lives, of stories, of experiences. You've woven together a tapestry of beauty that is beyond imagination, that is beyond magnificent. It's a masterpiece that only You could create, and for that we give You all the praise and all the honor. I thank You, God, for mantling me with this small part to bring together my beloved contacts in the Military. And all those who have found value in what we offer, who have found value in security and safety, in my voice, a soft voice, a delicate voice, but a warrior's voice nonetheless. I will speak the truth. I will speak for Your people. And I will speak for freedom with my very last breath. You have brought us together all across the world, and we just praise You for this incredible divine appointment. There's absolutely no other way to say it. And we give You this time. We ask for our speakers to have clarity of thought, direction, focus, and

that Your people listening will have breath of life. They will have passion and boldness in their breasts, and that they will have feet that will move into the fire to save humanity. That You would put our hands to work and that we would put aside bias, that we would put aside pesky little petty indifferences, and that we would hold hands across every aisle, across every state line, across every ocean, across every country and that we would grab that hand next to our brother and sister and squeeze it. And we know that we're in this to win it, that we will be a united front and that the enemy will run and that You will be glorified because no man can steal Your glory. This is all about you, God, and I give You praise, and I thank You for all these beautiful people who have joined us, and we trust this will be time well spent. In Jesus' name I pray, Amen.

I'm Ginger of the Liberty Lounge. It is October 23rd, 2024, and if you're just joining us, we are going to give you a little rundown of how this incredible meeting is going to go with our esteemed guests. I am so excited. Just to introduce the layout, we're going to first give a little bit of an introduction to get everyone caught up. As sometimes many could be, this is your first time here. We've told the story in our Chronicles. We've put it out. We've layered the stories together. We've built it up. We're now at this crescendo, so I don't want to leave anyone behind. We want to catch you up to the current events together. I'm going to share some quotable quotes. And then I'm going to also have a dear friend share her remarks on a special Patriot Leader meeting we had, I call it the Freedom Forum, today and we're going to introduce our honored guest who created the documents, claiming all beings of the world, all citizens are sovereign. I'll be introducing them to you. They will have the floor. They will take the mic and share their conversation. And at the very end, we as a team, will host questions. And I'll tell you how we'll go about that at that appointed time so everyone can be organized. I'm truly excited so just something God has put on my heart to share with you is His faithfulness. “Know, therefore, that the Lord thy God, He is God, and He is a faithful God which keeps His covenant and mercy with them that love Him and keep His commandments to a thousand generations.” Deuteronomy 7:9. And God, may You add the blessing to the reading of Your word. Isaiah 54:10 says, “For the mountains shall depart and the hills be removed, but my kindness, God says, shall not

depart from Thee. Neither shall My covenant of peace be removed from you, says the Lord that has mercy on you.” Isaiah 25:1 says, “Oh Lord Thou are my God. I will exalt Thee, I will praise Your name, for You have done wonderful things. Your counsels of old are faithfulness and truth,” and the Word of God says in Psalm 27:1-3, “The Lord is my light and my salvation, whom shall I fear? The Lord is my strength of my life, of whom shall I be afraid? Though a host shall encamp around and against me, my heart shall not fear, though war should rise against me, in this I will be confident.” In Romans 8:37-39, the Word of God says, “Know in all these things we are more than conquerors through Him that loved us. For I am persuaded that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any creature shall be able to separate us from the love of God, which is in Christ Jesus our Lord.” God put on my heart, anyone who knows me knows I'm a diehard Patriot. I love my country. I love history. I'm a super-duper history buff. And I love the men that founded our great nation. Patrick Henry said, “United we stand, divided we fall. Let us not split into factions, which must destroy that union upon which our existence hangs.”

Hey, Telegram, I'm talking to you. Hey X, Hey Facebook, Hey, TikTok. I'm talking to you. Let us not divide into factions which must destroy that union upon which our existence hangs. I may not be your cup of tea, but I'm going to tell you the truth, and I'm going to love you, love you, love you. In 1764, Patrick Henry was elected to the House of Burgesses, the lower house of the Virginia Legislature, where he supported frontier interests against the aristocracy. His speech against the Stamp Act in 1765 asserted the rights of the colonies to make their own laws. He said, “If this be treason, make the most of it. I know not what course others may take” Patrick Henry said, “but as for me, give me liberty or give me death.” John Knox said, “Resistance to tyranny is obedience to God.” Thomas Jefferson was quoted as saying, “When tyranny becomes law, rebellion becomes duty”.

Edmund Burke is known to have said, “All tyranny needs to gain a foothold is for people of good conscience to remain silent. Nobody made a greater mistake than he who did nothing, because he could only do a little. The only thing necessary for the triumph of evil is for good men to do nothing.” The greater the power the more dangerous the abuse. And I'm here to tell you, that the good men and women of the world, the freedom-loving,

sovereign beings have united and they have latched their hands together, they've put the noose around the snake, and they've got a chokehold on it, folks. They've got a daggum chokehold on that noose, and you and me can unite together and let's yank that puppy. How about that? This is really what it's all about.

So, I'm going to tell you the story. This channel, the Ginger's Liberty Lounge, is tightly aligned with the Military Alliance. We have scores upon scores upon scores of Special Operators. These are Special Forces badasses, who are out there doing the work, making the arrests, fighting the fights. We tell our story in Chronicles of an Ambassador. And I don't know why they've come to me to share their story, but they have said, "Ginger, we need the message out to the Patriots, and we trust you to do it." And I accepted, so we wrote the story about how Special Operators arrested the High Horseman on October the 8th. The number one human trafficker in the entire world, it was estimated. His real name is Rodeo Rodriguez. They took him into captivity. They captured up to 42 of his henchmen. This man had had 18 facial reconstruction surgeries over 30 years so that he could elude arrest and elude the law. He has been captured and he divulged and gave up a number of names that exceeded 300. Those people we know now have been taken out or arrested or taken care of and I want you to hear me and hear me well. After I broke the news, every single reveal I made, every Military Alliance member who said, "This is what we want you to report," 20 minutes or less after I reported it, a Military member sent me a PM and he said, "Ginger, not only did you say what was true, I was there and I can definitely support everything you said that it was true."

As time went on, we learned that a Special Friend of mine who I did humanitarian leadership things with, I introduced him to you with a fake little name in my story, which I do to keep my contacts protected. I'm allowed to tell you who it is. The Knight of Holland is Jean-Claude. You'll meet him tonight. Jean-Claude messaged me, and he explained to me that the papers, these legal documents, were delivered to the W-H-O, the World Health Organization, and to the Embassy of the United States on October the 17th, 2024. In these legal documents, *all human beings, all living souls, were declared as sovereign. Most importantly, all persons who are elected officials under the corrupt corporation were ordered to resign their posts within seven days from October 17 or to face arrest.* The

authors and the signatories of these legal documents have the full support of the United States Military, and they are asking every person in every country who's a true Patriot to get the news out. I'm going to give you a little bit of the background. When these papers were ready to go, they wanted to get them to the Russian Federation. Admittedly, there was a little bit of pushback and these other officials were not too keen on cooperating right away. So, I want you to understand that the Postmaster General Judge who is named Eric and he's with us tonight, he has the largest jurisdiction in global rule. And he is able to order the Military. Of course, the White Hat Military enthusiastically agreed to cooperate and the White Hats took these legal documents and delivered them to President Putin. It was then President Putin who ordered the Russian Federation to deliver said documents to these proper entities, the W-H-O, World Health Organization, and the Embassy of the United States of America and other places which you will learn about. We have provided Ginger's Liberty Lounge the actual legal documents, all of them. We have given you video proof of this person, Eric, Postmaster General Judge of the world. We have also provided visible evidence that he himself was on the premises at the W-H-O, at the Russian Federation, that state he was on premises to witness and personally handing these documents to the intended parties. But here's what is so fascinating. We were told on the 17th this happened, and Jean-Claude told me on the 19th, "This has to go viral. We have to get the word out all over the world." And as the news was out on my channel with Chronicles of an Ambassador Part 17 and Part 18, the news was trickling out and there's a lot of Military people on my channel. And they are forwarding it to other people, of course, that are not necessarily in the Lounge. But I want you to know that word got back to me, not only is what Ginger said absolutely true, one Military person who is not here tonight, they're not a part of this channel, but they have said communication to me that not only was what I said absolutely the truth, they were the ones that were tasked with delivering the documents to President Putin himself.

So, for these leaders out there who are bunking things that I've said and the Military intelligence that I have said, and every dang thing I've said has come true, one thing after another has been proven absolutely factual and spot on. So those people who are poo-pooing it and saying it's just bunk or it's woo-woo, you think it's a little crazy because I just

happen to be involved with the Celestial Alliance, well the joke's on you, Babe. And I would encourage you to turn your little tricycle around and get on the right track with the Patriots that are taking our country back. I would really encourage you to do that because the Military is watching. Are you hearing me? *They're watching.* This is a time for us to come together and put aside pettiness.

So, bringing you forward, these authors and signatories of these legal documents have the full support of the U.S. Military. If these people, these leaders, do not resign, they will be arrested. Now, what can a common citizen like you and me do? Number one, we should send out this announcement, the facts that these documents were really, truly handed over and leveled against these tyrannical, government leaders, those that are a part of the corrupt corporation have been served. We have documents that cannot be tampered with, they're read-only, which is safer because we do not want the Deep State, any minions, low-level minions changing any wording. They're also, we're going to provide you with a zip file, read-only, so you can easily share it by text message and get it out everywhere. Number two, encourage every Patriot Truther with a following to share this far and wide. We need all you podcasters, we need you TikTokers, those of you who don't mind getting your face out there, your voice out there, we want you to print out the document. Hold it up in your TikTok video, your Instagram. Hold it up and give the bullet points, the highlights, sum it up to your people, what are the legal mandates within the document assuring Patriots everywhere that the tide for Freedom has turned as of October 17th, 2024, and we're ready to rock.

This news must go on full blast. My contact received a phone call from White Hat Military Alliance at 5:00 in the morning. They got to see the validity of these documents that we had, they saw the photographs, they said, "We're here. We are here now. We need to pump this out." And it goes right in tandem to what Jean-Claude told me on the 19th of October and the 20th. "This has to go viral," he said. So, we need all people everywhere to know that the corrupt corporations' governments have been shown their walking papers, and they need to heed it, heed these legal mandates or they will know what's coming. The White Hat Military Alliance urges you and me to become involved by serving these documents to any elected officials in your community, at your town, city, and state level. After a certain

deadline, those who fail to resign their post will be arrested, both by Military Operatives, who are chomping at the bit by the way, sworn in as U.S. Marshals, as well as citizens who can join together in enacting constitutionally covered citizen's arrest of all these elected persons.

Next, the sooner this gets done, I have been told emphatically, the sooner this movie will end. We do not want any Patriots in the sound of my voice, resting on a future deadline of a future declared December 17th, that they have to resign by December 17th. We do not want you focusing on that date at all. For lower-level officials to be arrested the White Hats have told us to pump it up faster, *like right now*. You are urged to not settle into any form of procrastination. Do not get into the mindset that we are waiting for the good guys to ride in on those horses and to save the day. We must see that our opportunity to restore freedoms and to remove tyranny is now.

We, Patriots all over the world, must stand united. And those who fail to resign will be arrested by the Military as their backing and their full support has been assured and guaranteed. We have the receipts. We are showing you evidence of these documents. You will be speaking and hearing from the originators, the authors, the signatories, those that literally put their thumbprint on the documents and signed it away. They put their life, their breath, and their soul into creating these legal documents to assure the freedom for you and for me. You will hear them speak tonight. Give this recording, when it's done, give it gas. Give it traction all over the world. The WHO, the W-H-O, the U.S. Embassy, and all agencies under the corporation are done. Their rule over us has come to an end. Speak up for freedom and speak as a free man and a free woman. And let this resounding call to be boldly declared in every tongue, in every tribe, on every continent. As one people, with the banner of God's love and truth over all of His creation. This is our time to rise up and be counted, right now, today, and in the days and the weeks to come.

I felt led to share with you an amazing, amazing fact. One of our Liberty Lounge members is former Army, he's active-duty Air Force, and he's beloved by all Liberty Loungers Extraordinaire and his name is Plato. And Plato said, "Folks, this is exciting", speaking of

tonight's call. "Tonight, there will be several people from the Re-inhabited Republic listening in on tonight's call. I know of at least two governors who will be listening, one Chief Justice, (which is he himself, Plato) and possibly a few Senators and Representatives. There was actually a member from Ginger's Liberty Lounge on my vetting call last night. So, it's awesome that we are seriously starting to get together. We are seriously getting synced together. I love the synchronicity. I'm so excited," Plato said.

And I want you to hear also what our amazing member said. Jack Frost said "President Trump told us that we would be taking our country back." Also, David Straight has told us for years now "That the only way NESARA can be ushered in is if 'We The People' are active and ready to do our part." We can no longer be passive observers. Being passive is what allowed these fools, these evil fools to come into order to subvert our Republic. God has equipped us for such a time as now. I stand in my God-given sovereignty and I bow to no man or person. I do not comply and no evil government will tread over me or us. And Jack said, "Who's in? Who's with me?"

So, we now bring into the call, into the conversation, our precious friend C.K. I also want to let you know how she's linked into this story because C.K. just so happens to be in meetings with the character in one of our stories we introduced as Cleopatra. And they were in conference calls together and C.K. is definitely willing and able to speak as to meetings that she has been a part of. Furthermore, she was in on our Freedom Forum today. Alright, Jean-Claude, since I'm not able to find CK in the mix yet, Jean-Claude, I would like you to go ahead and begin sharing and I will be looking for the others and unmute them.

Jean-Claude: Good evening everybody. I'm Jean-Claude, so-called The Messenger, and I have Ginger as an old friend. We were in the project together then that finished a little bit, but it doesn't matter. Then I find Eric's Postmaster Group and joined the Postmaster Group in Holland. For three - four years we are now in the Postmaster Office and Eric learned me a lot about syntax grammar and then the language for the government and justice. I'm not so into syntax grammar, because it's a difficult language and it's real, but it's real. That's a language you can use to the government, they will learn to listen to you.

They have to respond in seven days if you ask them a question. So Eric managed to do that, or the Postmaster Group together, because we are working day and night with documents. And this is not the only document, we made a lot of more. Eric went himself with a few Postmasters to the Vatican, to raise, wait a minute, just a minute, I just got a message from Eric and Frank, "I hope that you can join Ginger." After Eric's name, is P.M.G., Postmaster General, maybe you can find him sooner. I'll go on with my story. Well, that's what happened. I can tell you, this is my news. I was a hairdresser. My salary was stopped because I'm in the middle of the Netherlands and I cut the elite. So I can assure you, the most advocates, judges, notaries are already gone, because I cut their hair and they are gone. All on the same time last year. That's very important for me because they are all arrested. I don't see them anymore. I make special time for them to cut their hair, but they are not there anymore, all gone. I think there are 20 and other high persons are gone. So, this is real. They will be arrested because of child trafficking. We all know that and it's true. Well, Eric and Frank can talk to us with documents, what we did, and they can explain it better than me because I know what's standing there but explaining is a little bit difficult for me. So, we need Frank and Eric now to explain what they did.

Ginger: Eric is the Postmaster General Judge of the World.

Frank: Yeah, can you hear me? I'm live? Frank.

Jean-Claude: Hi, Frank.

Frank: Can you hear me?

Jean-Claude: I can hear you.

Ginger: Yes, thank you, Frank. Welcome to the conversation.

Frank: Hi, Ginger.

Ginger: Hello, there. We now have Eric on the phone. Test it out, Eric. Okay, everyone, Eric has called me. Eric, can you speak again and let's see if they can hear you.

Eric: Can everyone hear my voice?

Ginger: Would you raise your hand if you could hear him? Keep talking.

Jean-Claude: I can hear him.

Frank: Can you hear me? Can you hear me?

Jean-Claude: I can hear you.

Ginger: Frank you're coming in clearly, and we also have Eric. So, everybody we're gonna let Eric speak now. He is the Postmaster General of the World.

Eric Okay, the first thing I want to tell you is that Ginger, you do a lot of beautiful works and you bring a lot of people together. This is my compliment to you for all of what you're working with and they are helping you. Okay, I'm going to tell you how everything happened to us in the Postmaster Jurisdiction and Frank and I help each other. We are searching and looking for, ok, we have a law, we have a corporated law, a law in the United States, Washington D.C., we have the Vatican State, and we have the city of London, that is also in the United States. After that we went on a search for what's the Real Law in this world. And we found out that The Hague and the Netherlands is the geographical capital of the world. Everything is going by the Hague, the law of Treaties and Facts, we find in The Hague. From there you get the Treaty of Paris, the Treaty of Vienna, the Treaty of (inaudible). What we found out is that governments...

Ginger: While he's looking for the papers, he said the Hague has been served.

Eric: We found out that there was arranged to the UN, One World Order... (inaudible)... America, also the United Nations (inaudible) those governments who (inaudible)... We also found out the Roman Law, the highest law on earth, but the rest of that, all of those laws, if you have the United States laws, it's perfect, we have the Netherlands laws, we have the Belgian laws and we found out that what helps France is the Ground Law of the Netherlands, the Ground Law of Belgium, also, we have to make the Roman Law, the Roman Law is the highest law on earth. The first law that there is, is the Universal Law. The Universal Law, that has to (inaudible) Law, it has to be Living Law, and the Natural Law. And then you get Common Law, that's the highest law there is, and rule number one

is love. And what we have found out is that love is the source of life. When you get born from your mother you get the three names, the first name, what the corporations do (inaudible). In 2020 and 2021, what we find out is, in Europe and especially Netherlands, they're making a lot of chemical weapons, they use in laws, tests on people, and we said, this is not okay, that people are used as experiments, medical experiments, because we sent that to the U.S. Army in Germany, we sent it on September 19, 2021, and then December 2021, two American officers came at my home, and bring me the documents back, exactly the evidence, more than 8,000 pages, they give and so every time when we see something that's not okay, we make documents and all the documents we make, all of them Postal Law, the Postal Law it's the highest law on earth, and Frank will explain that later. Then we had last year, 26th of October, 2023, my lovely girlfriend, I got a lot of help from her and without her I cannot make those documents. And she found out that the Balfour Pact was ending 30 years, was ending as well, and that also made it a lot of summer running and it was a cure for all the living people on earth.

What we did on that moment was making documents and starting a car, driving 1,600 miles to Rome, to the Vatican, and there again, we had eight security check and my Postmaster General Judge title, the security of, exactly, also the Swiss (inaudible), they did all the checks of me and they agreed that I am an official Postmaster General Judge. And I have agreed that I get inside, bring this to Pope Franciscus. Because I give Pope Franciscus official documents over the highest jurisdiction as Postmaster. That the actions that they are doing with Balfour Pact on 30 October, 2023, was planned that the World Health Organization gets an appointment and they agree that all citizens worldwide can be under an obligation by the World Health Organization, and I guess the full power decides what is good for you. When we tomorrow come, I want you to get an appointment, and we said, "No," that's not happening. But after that, what happens is that they found a solution by the Council of the United Nations. And that was the Pact of the Future. Pact of the Future is that they try for the second time all the people as world citizens and get under an artificial intelligence system.

Ginger: We've just lost the call, so we're going to ask Frank to go ahead and speak, and

we are going to also have another suggestion. Frank, I see you. I'm unmuting you. And what we'll probably try to do is a recap. And in this private room outside, just a small little group, we're going to try to do a conference call, a clean and clear recording that we can do as a clear replay that we can get a nice, clear PDF on. Some people are hearing our esteemed speakers, but others, it's a little bit hard. So, let's have Frank, please go ahead and share what you'd like to. You can unmute yourself, Frank.

Frank: Yeah, do you hear me now?

Ginger: Yes, please proceed.

Frank: Okay, my name is Frank. I used to live in America from 1990 till 2001, traveling around, visiting the reservations and also working in hospitals and stuff, but also studying with the Erwin Rommel School of Law, which really taught me a lot. And I flew back to the Netherlands on 9-11. I didn't know, I was in the plane, and I left from the same airport and when I landed in Amsterdam, I could see in the monitors in the airport that behind me, New York exploded. So that was the day I left the USA. So that's something you will never forget. But anyways, my vision, I worked with Eric for a long time. I have been working myself for a long time on building a treaty because it was my study and interest to find out why the treaties didn't work with the Native Americans. And so it took me a lot of years, but finally I got it together and so the treaty is complete. So that's where I start, but where to start? To start, I always start with the eagle vision, like what is freedom?

Freedom is to be the owner of your real self, your authentic self. And owner means in a different term, fee simple, so there's no other claims on it than you yourself and God for time immemorial. So freedom is to be the owner, fee simple, for time immemorial of your real self, your authentic self. Fact is that authenticity, your authentic self, vibrates 400 times higher than the love vibration. So to be really you, authentic you, has a higher vibration, so that's a good thing to know in your daily life. Slavery, as we know it, started with the Romans and maybe earlier with the Egyptians. But as we know it, it's really started with the Vatican, because in 1534 they denied our rights, and in 1581 they denied our property, and in 1591 they denied our soul, and they claimed that. Because the Pope thought he was the only one that could speak with God and the rest had to be enslaved. So going along in

1790, of course Washington D.C. was started, was born, as a foreign-owned state, so to speak, and foreign-owned meaning the Vatican, the Bank of England, and the banks. Which confused the Americans that thought they had a Constitution that would protect them, but because of this foreign entity, the law changed. So, in 1865, slavery was abolished, but it continued in a stealth form, like a hidden, and we were still enslaved by what we called the *straw man*.

So, in 1933, our birth certificates landed on the stock market, and actually they were hijacked and so the straw man, *our surname* was hijacked, *meaning it was part of the securitization of the stock market*. In 1938 a public law became public policy, and it became the UCC, which is commercial law, and that's where all the debit/credits started and the gold was abolished. So, law, because gold was abolished, became colorable. So, the law and the courts became Admiralty, which is colorable *Maritime Law*, because Maritime Law, meaning there's an International Contract. And with *Admiralty, which is Sea Law practiced on land*, there was no International Law to back it up. So, it was a colorable law with compelled performance. So, anything that is compelled is part of this Admiralty Law, which is in essence, a robbery, a theft of your sweat equity. Then in 1965, the banks, the feds...

Note: At this point Telegram dropped the call. Frank had been providing some history as to where we have been and how we got to where we are from a legal point of view. It is our desire to capture this history in another audio as there was a good deal of history that was dropped and not recorded. For this, we sincerely apologize. While we were waiting for people to rejoin the call, Eric gave some complimentary words he wanted to share before we got the recording restarted.

Eric's words started with his appreciation of Ginger bringing everyone together. He said, "What is important is that Frank, Jean-Claude, me and a lot of other Postmasters are doing a lot of work and had to make that we found out that the law jurisdictions worldwide, is, not a lot is correct. We found out that a lot of jurisdictions are written letters and confidential confidences, silent specs. And they claim it like a patent." We rejoined the recording with Eric picking up the story.

... of Troy, they just said in the Netherlands, and it's not by Congress that there's a law. What I have found also out is that I get specialized in the Roman law and found out that

the Roman law is the base of the Ground Laws of every country. Next, what we found out is that The Hague in the Netherlands is the juridical capital of the world. We found out that the Netherlands is a small country but had a lot of power worldwide and owns a lot of companies worldwide. It's amazing what we found in the Chamber of Commerce in Paris, what we found in the finance, the UCC, a lot of registrations in Delaware, Washington D.C. and also in New York. And that was for us a puzzle from there is something not correct and wrong. We're using the Postal Law and we got on the oath Official Postmaster and Official Postmaster General Judge, we get last year we found out and especially to my girlfriend and she found a lot of secret documents and information and she stands next to me 24 hours a day and we work it out together with, also friends of us and a special team of Postmasters International. And she found out on 26 October 2023, that the Balfour Contract was ending after 70 years on 27 October till 30 October 2023. A few weeks before this happens I made a Postal Decree and also that the people, the living free people are sovereign. What the government was willing to do, and especially the Vatican, is that the Balfour Contract was stopping the sovereign of us worldwide, the living free people, and they want to give our immunity away to the World Health Organization that we are at that moment several citizens, world citizens under the world organization and that they can tell us if we have freedom to walk on the street, or we got to live in 15-minute cities, or if we have an appointment or right to drive a car or a bicycle, or that we have an appointment that we may go with the metro or train, driving, and all connected to an artificial intelligence system and social credit system. And we looked to each other and said with five Postmasters, this is not what is going happened. After that we found out what has really happened, we stepped in the car going to the Supreme Court in the Netherlands, legalize the documents, and drive 1,600 miles to Rome to the Vatican to deliver there the documents to Pope Franciscus (Francis) to tell him this is not going to happen. We make a Stop and Correct as the Postmaster, *ab initio*, that means that the actions against our free people in the world is no longer accessed. We drive almost 17 hours to get in Rome after eight security screens by the Swiss Court and the Italian Military police, they approved that I'm Postmaster General Judge, official, I got inside with two security guards of the Military police to Pope Franciscus, where we delivered the documents.

After that we delivered there, I walk outside, we step in the cars, they also asked before I leave, where do you live, which hotel you have, where do you go, and we go away, one highway in to the Vatican step, and one highway away from the Vatican and after that we go away, more than 40 police cars with blue lights to the Vatican City. And we said we are just on time away to deliver those documents. And then we drive back to where we have to go. And after that, there was a lot of problems. We got phone calls from our staff that the documents have secured the sovereignty of the free people. Now, what happened a few weeks earlier from now, a medical doctor woman from America, I got a video clip that she was very concerned about the Pact of the Future from the United Nations. I saw the clip, I looked, and I said, this is not good. I called Frank. I talked to Frank, from Frank, this is not an emergency situation. This is an extreme, extreme situation and we have 30 days to complain to this silent Pact 2020. September 2024, this Pact is signed in the United Nations in New York by 192 or 93 countries. What they did in those Pacts, and this also for Senators and Governors, also U.S. Military in all states, there is one word they use in the documents, is Representative. And if they sign documents that Mr. Jean-Claude is Representative for the Netherlands and Mr. Eric is Representative for Belgium, that means that they signed a document, but it has no mandate for all problems coming in the future to the citizens of the world. They never can be caught by court, by jail, for the crimes they're doing against humanity, and that is not correct. After that, I talked to Frank. Frank has lived 10 years in America. He knows a lot of the American Law. I know a lot of the Roman Law, also the International Law, the Universal Law, the Nature Law, the Divine Law and the Latin Laws and we make a document. We work almost 8 to 9 days, 17 to 18 hours a day, to make this document, Ginger, what you also sent by Jean-Claude to you. And we make the *pactum de singularis, cilium, exorium, preamble, the praenuntius dus*. And grantor, executor, superior, Postmaster General, agreement and confidant, *pacta sunt servanda*. That means that this is the highest decree for all governments worldwide, that the crime against humanity is disqualified, with a Stop and Correct, signed by 16 International Postmasters. It is also with instructions to the Militaries under the DoD from a true-bill indictment and the Military Postal Service Manual, that as a Postmaster, an Official Postmaster, signed this document, that all crimes against humanity is under Military justice

punishable and that all the wrong and bad people against humanity have to be arrested under the Rico Law. That is signed in 1994, and also in 2000 at the United Nations in New York. That is all people, all governments against citizens and it will be punishable as terrorist and that is what we did. After that we had the documents sealed, it was a lot of work, we drive personally to the U.S. Embassy and the U.S. Army in the Netherlands to bring it personally. They asked me also that I send it by track and trace by Postal Union. We bring the documents to the Russian Embassy for Mr. President Vladimir Putin. We sent it also to the World Health Organization in Washington. We sent documents to the World Health Organization in Geneva. We sent the documents to the World Health Organization in Copenhagen in Denmark. We sent the documents to the International Monetary Fund in Washington, D.C., Headquarters 1 and Headquarters 2. We sent it to the UPU, the Universal Postal Union in Switzerland. We sent it to the Chamber of Commerce Europe in Paris. We bring it also personally to the Prime Minister in the Netherlands. He received it from us. We said it's still here and not there. The documents under the Postal Law, the highest law above all agreements and documents, is that they have to answer in three days. If they don't answer in three days, is it by email or by a Postal letter, by mail, then is the document official in full power. After seven days, if they don't request all the answers and the documents, then is the document international worldwide, full power and effective and there is no other Decree or Decrees what can disqualify this document. After that we all send this, we also send a letter to the EU in Brussels for all the fractions this document and after that all the track and trace by mail were delivered. Then we going to start to bring it worldwide to the people. We have it already in a few languages like France, Spanish, English, in Dutch language and there will be more language. The Trump Organization have also, for Mr. President Trump have also get those documents, two years back we also sent to Mr. President Trump a document of almost 3 kilo or 3,000 grams with a lot of evidence that almost 93% of child trafficking is going through the Netherlands, and that is shocking. All the evidence he has is by Mr. President Trump, and we ask for all the companies, a lot of children have disappeared, also Dutch children, and we need help, and we, a small group of Postmasters working to search the evidence, we only work in facts, just *de facto*, and then we make documents under *du jure* and that we send worldwide.

What's very important, though, is that the Pact of the Future is a radical globalist agenda that seeks to accelerate and implement of the notorious Agenda of 2030 worldwide, without any input from the populations and that means further slavery and oppressions wrapped in terms and sustainability and transformation of the global governments. The Pact was signed in New York by Dutch ministers, but no debate was held in the House of the Representatives. This is a concerning development that still really undermines our rights. That's a huge crime they are doing to our civilians and citizens worldwide. That, in short, is what we do and what's happening in this urgent situation.

Ginger: Thank you, Eric, our wonderful, esteemed guest, for sharing your wonderful insight. Frank, I'm looking for you. We're going to have CK to share your remarks, what is on your mind to share, and Eric, if you want to say anything else, just raise your hand. I'm going to mute your mic just so that we have a cleaner audio recording with no background noise. But please, kindly raise your hand at any time, or unmute yourself. CK, you are welcome to share, just unmute your little blue mic, please.

CK: Good evening, everybody. Well, God works in mysterious ways, it has to be said. And very recently, different sources have all been brought together. Anyone who knows me knows that I have a little, small, personal group of sources, and one Cleopatra, we were able to be in a personal call with Eric this morning, where he went through some more of this extraordinary legalities that these very, very brilliant lawyers have put together. It must have been many, many, many years of joint man learning and experience that has allowed them to put this together. And for many like myself over the past decade, Cleopatra 20 years, I know people who have been in this community of truth-seeking for well over 30 years. And what this document is and what Eric has described, is actually the dotting of the I's and the crossing of the T's and the filling in of information that we have had a little distracted and a little disjointed in the past. So, the document has been served and I said to the gentleman earlier, I told them, it's time that you take your foot off the pedal a little because I can feel the smiles. You've done this extraordinary step in the process. One of the most important steps for every sovereign being in the world, and you have written history, without a doubt. Universities and schools will be teaching your important

work. So you can now smile a little, because it is now time for We the People to stand up. The hard work has been done, and it is time for the Patriots to take over.

The purpose of this call is to bring this information and to get it out through every YouTuber, Truther, TikToker, podcaster, poster, emailer, starseed lightworker, and every concerned patriot on this planet. Because guess what? The faster that we can get this information, and trust Ginger has worked beyond what is required. And in the morning you are going to have the full, full package. The full package, the full recorded interviews that you need to disseminate as far as you possibly can. Because remember, the faster this information can be disseminated, the faster blessings will abound. This is probably the most profound call that anybody has ever heard. And maybe it hasn't totally sunk in yet. We are now all sovereign beings. And within seven days of the serving of those documents, every government official needs to stand down or be arrested. So, this is education for all, and certainly it's one of my most exciting days out of the long haul that we have all been in the midst of the confusion. This is bringing it all together, and God has put us here to finally pull the curtains closed for the grand finale of this movie that we have all been involved with, that we have all not enjoyed in the slightest. But the beautiful peace and joyful world beckons us all now. So, it is a call to action for all the Patriots worldwide. Where we go one, we go all. Let's get this job done. And let's get the blessings, helping the people. Thank you.

Ginger: Woooo! That was amazing, CK. Thank you to Cleopatra, if you're listening, for just sharing in the joy of this momentous occasion. She reiterated the sooner we help the cause, the sooner that we stand up for freedom, the sooner we put this news on blast, the sooner the movie ends, the sooner NESARA / GESARA laws rollout, and the sooner our freedom is realized. CK, your talk was, whew, so brilliant! And I just want you to know I love you. So beautiful.

CK: I love you too. I love everybody. Congratulations! Anybody who is listening to this call, we are called. This is our calling. This is our mission. And don't take that responsibility lightly. This is our time. And we, every one of us, now can be part of writing history for our multi, multi generations to come. Imagine that legacy, that you're going to be able to

leave your own bloodline, let alone the children and the people of the world. It's just beyond exciting.

Ginger: And I want to thank again, Eric, Postmaster General Judge of the World, for laying down the amazing brick-by-brick fundamentals. I want to thank Frank, also an experienced man in law, who helped to write, compose, and work with this team to create the legal documents and did such a lovely job explaining his piece. And Jean-Claude, who has been a faithful companion for all Patriots. And I want to give everybody some great news. Okey-dokie? Don't worry about any technical glitcheroo, because God is able. He's so wonderful. And I've got the best team of supporters in the whole world. Our admin team is standing by. We've got editors; this is a live recording and we have editors that will be creating a PDF document. And do you know what? It's no problem that we have two separate little recordings because the call just strangely dropped. You kind of wonder what kind of interference is happening, since this is over the target, right? But don't worry, greater is He that is in me and in you, than he, that is the devil, that is in the world. Greater is God. And we have a professional man on our team who is an audio techie genius. And he's going to be able to piece together and splice together these multiple recordings into one seamless, beautiful piece of work. And that will be done, God willing, tomorrow. So, Eric, what else would you like to say? And then Jean-Claude or Frank, if you want to say anything.

Eric: Now, what is most important is that the universal law is the highest law of earth. Rule number one is love. We rewrite the universal law on the highest law. And we have talked last Monday together. And I told you what normally is confidential. I keep confidential here, how this law is rewritten, and I told you that the first law from the universal law is love, but we make it together with love and family. And why we made to choose love and family, it had to make that the bad companies, the Deep State, the wrong elites, they are only thinking on power, money for themselves. We have to restore a better future for this world, and that is what we are also, a lot of hours talk about from how we're going to fix the families and love together, once the damage is so much impact that it just takes years to bring traumatic situations where people have gone through, back to a normal life. This life is for nobody good. The next is that we have not God, but Lord God. And

why I said we have not God? God, you can also turn the words, and then you get dog. And that means God is governmental, ordinance, department. And if you turn the words, you have department, ordinance, governmental. And that is the Vatican, that is Washington, D.C., and the city of London. The military power, the bankers' power, and the religions. And what I also said, if you are yellow, or you are brown, or you are black, or you are white, you are Muslim, you are Christian, it doesn't matter which you are. I see everyone on the whole world as one. And we have, or you call God Allah, or you call him God, He is the same. We all, I see everyone as one, and there's no one who is different. For me, it's everyone one family, one love.

Ginger: So what we'd like to do, we're going to now open to a part of participation. If you are in the Ginger's Liberty Lounge chat, we're going to give you an opportunity to use a bold icon so that your admin team will know this is a question, like if you use a blue heart. If everybody would just use one icon, like a blue heart, and that'll show this is a question for Eric, or Jean-Claude, or Frank, or C.K., Cleopatra, or myself. C.K. is speaking for Cleopatra, having been in those meetings on the financial governance side of the coin. So, use like a blue heart emoji. This lets your admins know this is a question for this chat. And then we will have Pisces Girl reading the questions. We've already been collecting questions from channel members today. So those of us who are participants, the leaders, just if it's a question you wanna tackle, unmute your mic, and let's just engage our family members. So once again, do not raise your hand. Again, the reason why I'm saying don't need to raise your hand is because this Telegram glitch will not allow us to see all participants. We see about 100, not all 1,700 of you, or like we had 1,900 about 30 minutes ago. So don't raise your hand but put your question in the chat room. We've already advised our stellar admin team on what to look for. We have a special space set aside to gather all questions in one easy-peasy place for organization. And Pisces Girl, you may now start reading the questions. It's going to be fantastic. And if you wonder, how do I get into the chat room, let me answer this for you. Go to Ginger's Liberty Lounge, the main channel. See where I posted today. Underneath my post, you'll see the word comment. All you do is tap on the comment. That will invite you to join the chat room experience. So, again, find any post on the main channel. Tap the word comment. And you can just put your

question there, the blue heart, and your question afterwards. That will automatically take you into the companion chat that supports the main channel. All right, Pisces, take it away.

Q. Pisces Girl: All right. Hi, everybody. Okay. Our first question is from Positive Manivestments: Can you provide any information regarding how these documents are formatted? What do all the underlining, colors and added characters represent? I would love to learn more and believe it could provide validity to these documents. I also would really like to know more about this special Postmaster General position that Eric has.

A. Eric: Now, I can be short on this, is that if you have a blank paper, a letter, you can put three columns in the vertical language, as you have a column in the right, in the middle, and in the left. The left side of a letter is green. You use the green pointer. Why do you use a green pointer? It's national law. If you want to sign a contract, then you sign with green. Green, that is your official name under nature law. In the middle, upstairs and downstairs, you write with a red pointer. That means trust law. That is your living law. And on the right side, upstairs and downstairs, if you have to sign something, you do it with blue. Blue is admiralty law, and it means contract law. And the other question was about my Postmaster, you mean?

Pisces Girl: About your position.

Eric: My position is Postmaster General Judge. And I got it by an appointment, but the rest I cannot tell. It's confidential. It is checked by the Vatican, and the Vatican agreed that I'm official in title. After that, I delivered last year the documents to Pope Franciscus.

Pisces Girl: Thank you so much for that. The next question is from Fredorama.

Q. I'd like to request more detail and possibly documented instructions regarding how and to whom we locate in the local U.S. Governments to demand, request, insist they resign.

A. Eric: Now, the documents have five-pages documents. It's a short version of the document of 50 pages. We have a document that means, in English, that love is the source of life. It's a little bit explained from what we did as Postmasters. And it also explains how you have to sign it. You can sign it individual, but you can also say we do it by the group and we sign with 10 people, or with 20 people or maybe 1,000 people. One document you

make a copy, the copy, the original you keep self. On page 5 you have to sign it with a red pointer, and what is important what we found out in the Roman law is that the system works with an executor, and the executor is like a judge in the court. And we found out that the general executor is a vacant position that is not claimed, that can only be claimed by a free-living sovereign people. And it was a lot of study to search out. It's more than maybe 10,000, 15,000 hours of research to find out how to crack the code. We found out that in April 2010 the court of the Vatican made a decision that when a person, on the correct way claims his general executor and he's authorized his title, then he is officially sovereign. That is why we make those documents that if you write with your red pointer and you write low in name, not upper high, but low and also italic, together all the instructions on the papers, then you write your living name on the trust loan. That means that you claim your general executor positions. And the general executor positions is nobody from a government or from a court room can claim that. I have also in the Netherlands get to the court and we also use that in the court and the whole system in panic. They jump up behind the desk and you have to see it like the court is like a vessel. You're coming inside, the judge is the captain of the ship, then you have the chairs where you can sit, that's the cargo, but you cannot sit once you are a living people. You have two legs to walk, you have a mouth to speak, you have a nose to breathe, to get air inside and get air outside. And all the court cases also with city halls are trust numbers and every case they earn a lot of money. If for a court it is important to get money, then you get a case. If it's not important, then before you going to the judge, they know already who you are. And that is the point also, you are not the executor. I am the general executor and they are not happy. And we make the documents that you go as a general executor, and you're authorized by us as the Postmasters team that you fully legalized. But we also have written in the documents, a crime is a crime. That means if you have a crime done and also bad people, it's punishable under Military justice law. Now it's not meaning from, I have a free ticket, people will all be wrong. It's no excuse from, oh, I have a free ticket. If you are wrong and you have to be punishable under the law, the Military justice law it's them using against you, if you're doing something wrong. If you're not doing something wrong, and that is the word of God, what we're speaking in this document, Lord God, then you have not to fear for anything. And only what you do is make documents, go to your governments,

go to the courtroom, go to the police. We are free people, and free to live. That's the whole point. But if you read the documents, and it is not easy to read, it will explain a lot about your possessions as sovereign. There are other questions?

Q: RN Belinda: If they don't resign will they be arrested? Do we serve after Dec. 1 if they don't resign?

A. Eric: All actions against this is punishable under Military justice, and that is why we also informed the Military. You get a citizen arrest, you may do international, under the highest law that there is, and that there's Universal Law, Divine Law, Positive Law, the Nature Law, and that's Common Law. And if you see, if you have the right law, then you have a courtroom with 13 people inside, for a small case, and 25 people for a great case. When there is a crime, or they don't know exactly what's happening, you can go with the papers to the Military, and you make an appointment by the United States Military justice or by the Military department. We have here the documents. By every document, and the big document, 50 pages, are two documents included from the Military, department of Military justice, is that the order of the Postmaster is agreed on the highest level.

Ginger: I would like to add something to this conversation. I did receive information from my Military contact. This is a Special Forces member whose team is actually doing the massive arrests. I also received a celestial download to share in my connection with Celestial Alliance. Everyone, please listen. All the highest dignitaries, the big, big dignitaries, the big, big, big politicians, those folks, presidents, ambassadors, vice presidents, royalty if you will, they obviously have paid security, right? They're not going to take kindly to a citizen arrest. Do not become involved with those bigwigs. I am asked to tell you, don't engage with the bigwigs. The Military is going to take care of them. All you're going to be asked to do is to take care of your local township, city, state, your mayors, your school board people, anybody who is an elected official is fair game, Okie-Dokie? An elected official is fair game. And you may do it together, don't feel like it is you against that person. You may formulate a team within your community. They can sit around your dining room table, or your living room couches and listen to this replay. Or you'll have the pdf documents. You can read it verbatim and share this information, so

everyone understands the ramifications. You can jointly get a group of 15, 20, 25 people and go after that one mayor citizen's arrest. And they have to step down. If they fail to step down, they will be arrested. So, these papers can be served. They can be given fair warning. And I was told by my Military contact that if your contact, the person you served, if they fail to resign, you can get in touch with our team. I'm going to have a point of contact. This will come in time. We will have a point of contact who will be the safekeeper of this information. We will have a one point of contact who will assimilate these names to the Special Forces, who will enact the arrests. It's just going to take a little helicopter ride, settling in, hovering over their home, about 1 or 2 in the morning. And these guys are going to maybe shut off the electricity on that street and hover over and go in and the Special Forces can go in and make the arrests. Okie Dokie? So, you all can let us know this one point of contact. Don't PM me, "Oh, my school board council member didn't step down" or whoever. Don't tell me. I'm going to have a point of contact that will be given to the Military. Also, be advised, there are a ton of Special Forces on Liberty Lounge page. Some of them have accounts, but the most of them, they have high security clearance, so they don't even need to have a Telegram user account. The Liberty Lounge is their most favorite place to hang out when they're not kicking booty and taking names. They love the Lounge. They don't need to have a Telegram username. They can just pop in and pop out at their will. And so they're seeing the conversation. They'll also be able to see names that you're mentioning in the chat room, but we want to get them all to the Special Forces so that more reinforcements, we have the complete full support of the Military. Next question, Pisces.

Pisces: Yeah, and I think when I went over this, it says, do we send these to local courts? And you did mention that this is all local municipalities. So, I would say, yes, you can take these to your local courts and judges.

Q. M Livingston: Can we apply this to Canada?

A. Eric: Yes, you can apply it everywhere. It's an international law under the highest jurisdictions, and the highest jurisdiction is *Pacta sunt servanda*, and it's an official law, one of the highest Roman law for every country in the world.

Pisces Girl: Perfect. Thank you.

Q: Would it be helpful to understand how and why the World Postmasters exist, their duties, responsibilities and powers? I think Eric already went over this, but if there's anything else he wants to touch on.

A. Eric: The postal law, you have to say, when I want to send something from Europe to America, I need a track and trace or a stamp. And then you give a value to the letter. Then you see the Universal Postal Union in Switzerland. They make every year from 31 December till 31 December, the appointment with every country, they have to sign for the value of the stamp. And if you see that the one value, you see, every time they are expensiful, expensiful, expensiful. But there is one value, and that is the official value to legalize documents, is the two-cent value. It is off-purple, or it is red in color and that has the highest value to legalize documents. And we also use that. We also found something else, and I'll see you in one of the last pages, is that a silver coin, 10 cents, disqualified all illegal contracts where there were standing in, like, representative. I have signed the documents, but I'm never responsible for all the crimes I'm doing against the civilians and that is also to the Military. Everyone who makes a crime will be seen on the regular as terrorists and will be punishable under Military justice. What we use is a silver coin from 1937. And why we use 1937 is in The Hague, the World Peace Pact signed for the whole world, and after that, World War II breaks out. And what I'm now going to tell is also, I think, not fine to hear, but we found also out in documents, that in 1947, the Dutch government put a decree, especially the Royal House, in the Netherlands, what is not official, the Royal House, we found out, signed in documents where they put all back to 1937. And on paper, there is never official a World War II in Europe.

And what we also found out, like Pfizer, Moderna with the vaccines, is that all the documents are post-authorized and post-effective, which means that the UPU in Switzerland knows and legalized those documents before they began and starting to vaccinate the people with poison. And that is also standing in the documents is that this is not good. What we also found out is that in 2017, in the Netherlands, the whole export from the COVID medical kits were sending all over the world, two years before the COVID break out. And all legalized by UPU, like post-authorization and post-effective, and that is not good. The postal law is making for a real postal, like also postal money order. And we

disqualified it. There's also a question what I get from a higher person, can you rewrite also the postal law? He said, if it is necessary, we're going to rewrite the postal law, but first we have to find out what is really tricky about the whole postal law. And we found a lot of evidence, a lot of problems, and they're re-working on, and on a later stadium we will bring it out, what is really going on.

Piscees Girl: Thank you.

Q: The next question is, with the Alliance taking down the Deep State, should we expect the turmoil for over the next six months? How does NESARA fit into all the crazy?

A. Eric: The only thing I can say is, I don't look at how NESARA / GESARA is working, what the Military are doing, and I'm respectful for the Military who are fighting against the Deep State. And especially not forget the people who give their life for our freedom. We don't want to forget that. The only thing what I do is that I sit in my room, I have my papers, I have my laptop and I only search from the laws, all laws that are there, and I see the problems I get from my girlfriend, also from Erica, look what's happening, she's 24 hours helping me and standing next to me. And then I get behind my laptop and I see the big problems, and I begin writing, and I write these documents in a few days. And after that I go check with Frank, he was online, well okay Frank, then we take a whole day, and from the morning 6 a.m. to at night, 8 p.m. I was checking, then I made new documents, and then we legalized it and sent it away. We only give an interest to the Militaries, all bad people in the governments or in local governments and they are punishable crimes against humanity. They're all under the DoD, Military handbook, under Military justice. Take them from the street, punish them, and give them, yeah, they're punished what they need. If they have to hang public, hang them public. If they go to jail for life, bring them to jail for life. But it has to stop the crime against the free people in this world.

Piscees Girl: Thank you, Eric. I have a question. I know that we have to do our part as Patriots. However, once the timeframe is up for them to step down, does the Military ever step in? How does the public see what's going on?

A. Eric: What we see is that a lot of public, some people said they are sheep and sleeping.

But I tell also from the lessons I give, you cannot expect from people that they know the law. The first thing you get to learn in school is you have to know the law of your country. That's the first thing they learn in basic school. But the laws are every time changing, they're making rules. You cannot expect that people know how it works, and what we try to do is that we try to make a documents in language that someone who can read, can read the papers and his brain's telling him from "No this is not okay what the bad people are doing to us." This it is also very difficult for us we write in a higher language in law and to have to bring it back to normal people that they also understand what we are meaning and what is really happening. And that is what we're doing. And we have make in Latin, the laws, we have to make it in Portuguese, in Spanish, in Italian, in German language, in Dutch language, in French language. There's a lot laws and treaties where we have to work with.

Piscees Girl: Thank you.

Q. IrishBree: Why would we negotiate with these criminal politicians? Why do they need notice to resign if they've committed these crimes?

A. Eric: You give them a chance, and that is the postal law. You give them seven days for to resign, I don't know who ever makes it, but I can be agreed. First, you bring the documents. They have three days to respond. After three days, it is binding. That means the documents are official, and then they have seven days to respond. If they do not, then you can make sanctions that you go to them. From here, you have the papers. You recognize it, and then you go to the Military with the facts and evidence of what they did, but there are two groups of officials. You have the officials, the White Hats, who means good for our people, and you have the bad guys. And that is on the Military justice under the DoD Military handbook which punishable crime they get to jail or hang in public or hanging or they go to GITMO, that's on the Military. We have only used the Military codes, we did the executive orders by this document that all is punishable against this document is on the Military justice and the Military is involved. They have green light to arrest the wrong ones.

Ginger: I would like to add something to this. Eric has said these people are giving a chance, they're giving a space of grace to read and look at the legal documents and to make a decision to do the right thing. If they choose not to do the right thing, they will be arrested. I also have a sobering message for leaders of Telegram groups, podcasters, YouTube content producers, Rumble content producers, TikTok. Listen to my voice carefully. I have been told by the Military there are people, leaders who have signed an allegiance to, perhaps it's corrupt alphabet agencies. They have signed an allegiance where they were told to sign a contract. They were compensated monetarily to put out a certain narrative. The Military Alliance is aware. They know who you are. They know when you are putting out information that is not wholesome for the movement, that's dishonest, that is part of the cadence of the cabal, if you will. It is the mantra, the details, the narrative, the data points that the Deep State would like to drive. They know who you are. They can see the money going into your account. Are you hearing me? Listen to me carefully. You are being given an olive branch, leaders. You are being asked to get on board with the Restored Republic. You are being asked to sever your ties with the Deep State, with these paid provocateurs that want to sabotage our movement and have you say a certain thing. Maybe you signed those papers thinking you were working for the good guys. That's exactly what the dark side wants to do. But if you are out here saying, I'm not going to share this because it's woo-woo. I'm not going to share this because this is just, you know, "out there." You are not paying attention to the details. You must read the legal documents. And here, these are actual Military people telling us, "Hey, I was the one that had the private meeting with Putin. Yeah, he was waiting there in the hangar for me. And I passed off the documents." This is real. You have to get on board and help restore our Republic because if you don't, you're prolonging this movie. You're keeping freedom from coming. You're the one keeping NESARA and GESARA blessings from coming. You need to get over yourself, get over your ego, and get on frickin' board. And if you don't, guess who's coming for you next?

Piscees Girl: Thank you, Ginger. Super powerful.

Q. M. Livingstone: She or they want to know if we will have the necessary paperwork to serve these individuals.

A. And to M. Livingstone, all the paperwork necessary to serve these individuals is the documents that Ginger has posted.

Q. The next question is what about positions like the bylaw officers or the treasurers for the townships?

A. Eric: Bring them a copy of the documents and give them a chance that they choose for the people, or they choose for the wrong side. If they choose for the wrong side, go with the documents also to the Military and tell them they are choosing for the wrong.

Q. Bartok: What was the delivery of the document Eric was speaking about prior to three days ago? If so, is it now considered to be in force?

A. Eric: The priority was that 22 October, the 30 days of silence, and I think that I did not tell this in the beginning. What's happening is there is a Silence Pact. And a Silence Pact means that they have in the agreements that in 30 days, if nobody complains in 30 days from 22 September, then this Pact will be in Silence in full power for the whole world. And that is why we take action that we deliver it on 17 October to all those companies that we take as Postmasters to Stop and Correct, and that is for 22 September. This means that the Pact of the Future is broke off. This means it had no value. What we also found is that everyone signed as representative. That means I sign for this pact. Every citizen in this world going as a world citizen under an artificial intelligence and that artificial intelligence under a social credit goes to tell me what is good and wrong. Now, I am born as a free person, but there is no computer going to tell me what is good or wrong for me. And that is what they want to do. If they now push also and in Silence, the Pact also true, this means from, okay, we do also the Pact of the Future and you see it in cities, 15-minute cities. You go to the market hall, you're not allowed to pay cash, what all is on a credit, that is what they mean social credit. You cannot go with the train, you may not fly anymore, you may not cross the border, all that sanctions what they want to do. A free sovereign people have no sanctions, you live together as one, as one family. And the elite, and that is terrible, the sanctions in the Pact of the Future are not for them, but for the poor people. And what we also found out on passports, and it's that next to your picture in the passport is a big P standing there, and that means Pauper. And Pauper means that you're under the poor law,

from Roman law, the poor law. That means you have no money, you have no credit, you have no social, you have the only thing, what you have to do is to pay to the government. And we searched and searched and searched and we found something else is that all governments in 1912, and I don't know the name of the Pact, but when I find it, I will give it to Ginger, is that when a government declares illegal and war against another country, that means that we not allowed to have pay tax. That means that everyone have to stop to pay tax. There's a pact in 1912 for signed. One, if you pay tax, that means, that you are a war criminal, but you are supporting a war in another country and that's not okay.

Piscees Girl: Thank you. There's a few questions on here asking if there's going to be a link for these documents. As I stated already previously, we have links to all the documents. If you can't find the documents, please reach out to one of us admins and we'll be more than happy to forward the link and the documents to you.

Q. Money penny wants to know where we can go to study universal law so we can teach a simplified version to others.

A. Eric: What I will do the next few days, nice for this question, I will send Ginger a link and with the information insights, some information standing in about the Universal Law, the Nature Law and what it exactly means just in easy language, ones not too deep in the stuff but that everyone exactly knows what it real means. And then can Ginger put it online in the chat or on Telegram that everyone can share with it.

Piscees Girl: Yes, we will definitely be sharing that.

Q. There's a few people asking what it means exactly that we are now sovereign.

A. Eric: Sovereign means that you are free from tyranny, what the governments are doing. The better governments want, the official governments you see in some countries, our prime minister or minister, you have good ones, and you have bad ones. But the most already know, especially in Europe, are all connected with the Common House of London, the city of London. The most are bad. They are doing like, nice talking to the people, that people said, "Oh I got a vote on him, I got a vote on him." And after that there is a vote, like the farmers in the Netherlands. Then they see from, they have threatened us. And that

is what happened. And they have immunity, sovereign. They said we are immune, we are sovereign, but the problem is that the poor law have to finish. And that is what you declare to the government with the five pages document, the small pages of 50 pages, from all your actions about the 15-minutes cities, that I'm a registry under the poor law. No, I'm sovereign, but I have a real name, it's my front name. I'm a general executor, authorized by the highest law, you have no authorization about my fiction. And your fiction name is your last name. Your last name is an incorporated registration name. What you see in a lot of countries, if they get a letter of the government at home, is that your last name came first on the letter, and your first name, what you get from your father and your mother, is a second on the letter, and that's not correct. They have always speak to you with your first front name. And that is correct, there will be documents that explain that also, how it works, how to sign with your pointer the documents, in which color. Easy, that everyone understands how the real postal law is working, also with the stamp. I will send that to Ginger, and Ginger can share it online.

Piscees Girl: Perfect. Thank you. And again, we'll get all those documents out so everybody has access to them.

Q. Cindy Liu Q: wants to know, how will the Re-Inhabited Republic work with you guys? I am a part in Traverse County, Texas.

A. Eric: How the Republic works with us, the Republic works by themselves. They know exactly how the postal law works. And the only thing what we do is make only Stop and Corrects to them, from punish the law by rules. And we see that also here in the Netherlands, that we take a lot of documents to the government. And then you see like food have a date till 20 November and then the food is not any more good. That's also what we have found in other countries in Europe is that they give a law an end date and after that date, the law is finished, stopped. And then they make a new law. And that is also the document we have to sign to the government from We Are Free People. This is the rule, and also standing the United States Military laws and the commercial laws all standing inside also the international laws. And they cannot say, no, we don't agree. Then they are breaking a crime. They have to stand for the people and not for the wrong people. Thus, I

will say, read the documents, the five pages, it will explain a lot for you what it really means. It is an international official document with all international laws on it, and Frank and I write it, and most Frank write it, but it is completely from A to Z, completely one highest law, and higher than that you cannot go. Just bring that to the government and tell them, tell him and no further, we are not under restrictions, we want to live free. And there is also that we have to pay some tax. Okay, fine, but not taxes. What they are now doing, like in the Netherlands, for food was normally three, four percent, then they bring it to nine, now they bring it to 19. Then they want to bring it to 23. It's almost for the people, make them poor, poor, poor, make us rich, rich, rich. And that has to stop. There's also that in America with the gallon, you go with your car to the gas station, and, normally for a gallon, what you pay, \$1.50, \$2? And now the price is stock market that you think, is that normal? No, it's not normal. We have to bring all back to a normal position. And what we also found, and this is very important, also for the government, is that the bankruptcy, the second bankruptcy, the Pope Franciscus in Rome in 1965, declared all governments worldwide bankrupt. And that means, and I'm going to tell it first, I don't want to tell it, but I'm going to do it. That means that all governments worldwide have no legal rights and they cannot use the law on sovereign people. That had to mean that the declaration of the Pope in 1965, that means there's no law what they can use to us. And it's also when you see the international covenant of several and politic rights from the United Nations and you take Article 16. Article 16 is a very easy article what means, do you recognize me as a person before the law? Not into the law but before the law. And they don't want to recognize you before the law, and if the government recognize you before the law, there is no law what can punish you. And that has to make with the declaration of Pope in 1965 that all government are officially bankrupt.

Piscees Girl: Thank you.

Q. Girl Chris: How do we go about delivering these papers correctly to our local sheriffs and other offices? And how does the Military know who has been served?"

A. Eric: I have registry by the Military, by Washington, the Military. They have a lot of documents gathered the last five years, they know who I am, I'm in the system. They can

check my name, also check the name of Frank, we're not unknown by them. You make a copy of the document, if you don't have the possibility to send it by mail, then send it by email. Look for the email addresses, if you know it and you find it. Sign with a lot of people and send it, that you only inform them from, "We have an important document, read it correctly," that they know from, normally I not say this word, but fuck, there are restrictions. This law is from A to Z, completely. I don't know, it is a document to warn bad people against us and to say, "From to here and no follow."

Piscees Girl: I'm sorry. I think that was Frank speaking. Can you repeat what you said, Frank?

Jean-Claude: No, it was me. It's insane, what they did.

Eric: Yeah, that is insane.

Jean-Claude: He was searching for a word, and I said it to him, insane.

Eric: Oh.

Piscees Girl: Thank you, Jean-Claude.

Eric: Thank you, Jean-Claude. What he means is we make documents and then you go from Latin to syntax grammar in English and then you have to change from English to the Dutch language and from Dutch language to Belgian. It is sometimes not easy to get the words, so you normally speak and get out. There's a lot of languages what is going through my head, because of this document. This excuse me that I sometimes not coming exactly, of my right words I want to tell.

Ginger: I want to reiterate that the legal geniuses have translated the documents that were posted on Ginger's Liberty Lounge last night, October 22nd, 2024, and again, today, October 23rd, this afternoon, again, they were reposted. They are taking those legal documents, and they are translating them into multiple languages. We already have them done in Italian. We already have them done in Portuguese. We already have them in French and in Spanish and more to come. So, if you live in a country and you're like, "I want the documents, I want to serve papers," all you need to do is let my admin know. We will let

these legal linguists geniuses translate it, because the wording has to be exact so that it's understandable and it will have some force when these papers are served. And you will be giving, this is going to be a read-only document, again we don't want the bad rats to alter these, so they are going to be created in read only which you can print out.

Eric: Ah, Ginger, I got a small message from another Postmaster, and he write me “From this paper what we make, it provides a solid foundation on which we can stand in our struggle against this new world order. It can make a tremendous difference not only for ourselves but also for the whole future and generations. We must act now. This so-called transformation of the global governments is nothing less than an attempt to strip away our sovereignty. Argentina has already rejected the Pact, rightly describing it as a Totalitarian International Agenda. Do not let this opportunity pass by. Stand up for our freedom, our rights, and for your own future and for the future of our children and the next generations.”

Ginger: Wow. That's a beautiful message. I would love it, Jan and Mark, if you would actually capture those words. We want it on a snippet of an audio, and we want that shared, just as that was stated by this Postmaster team member. Thank you for those wonderful words.

Eric: You're welcome.

Piscees Girl: Eric, just to clarify something, and if you've already gone over this, I apologize. Say I send an email, or I mail the documents. How do I know that you know, or the Military know and are aware that these documents have been sent to them?

Eric: I can send the track and trace codes to Ginger that they can see. I'll send it to you, Ginger, then you can put it online, that they can see that it was delivered by the Military and by the U.S. Embassy, which I have been looking at.

Ginger: They were asking about We the People. She was asking how would they know that We the People have passed the document on. That was the question, about us little people.

Eric: Just sign it, make a copy. It's also standing on the papers from right in the middle under the word general executor. This all is explained in the papers how they have to seal

it with the pointer and how they have to send it. This also goes behind your laptop or on your phone. Look for the email address where you want to send it or you say, okay, I have a document and I go to the City Hall, ask for and receive, when you deliver it there to the mayor, there's a lot of possibilities because you have, self, to look at which government you have to make in your area to bring those papers.

Q. Member: And then how were you notified that those papers have been served?

A. Eric: I have a track and trace code and I have from USPS. You can follow your track and trace codes, and you can see when it's been delivered. Or do you mean something else?

Q. Member: No, I think you've answered. Are there track and trace codes then through the emails?

A. Eric: You know, what I always do is when I send documents I do it by mail and email. And I write in the email, "This document was sent to you by email and also by mail, USPS or DRL. It's worldwide delivering post. And then I send it by email and I go to the Post Office that I sent by mail with track and trace code. But I also understand that not a lot of people, and that is what I recognize, is not everyone has money to send it by the post office and not have a computer or a telephone to print it out. That is also what I tell people, help also other people who do not have the value to make the prints, to have a pointer to sign it. Help them. Go to a commune center where people are coming, okay? We have something important, speak to them, so shall we do this together? Okay, yes, we agree, okay. Sign it with a lot of people and the more people you have on one paper, then you can bring out. We the People do not agree what you are doing with the Pact of the Future against us as free-living people, sovereign.

Q. Piscess Girl: Okay, to send through the mail you're talking more about sending certified mail, correct?

A. Eric: Uh, certified mail, but if you don't have to value it for the certified mail then you do it by email.

Q. Piscess Girl: Perfect.

Eric: It's not wrong, it's not wrong to do it.

Ginger: I also have a gentleman in chat, Jedi-J, who has experience processing and serving legal documents, and he advises people to serve the documents locally in person. And you can document this, especially of something of this magnitude. So you could even be a citizen journalist and someone could take a video of you handing over the document, right? Handing over the documents, explaining what this is about, and you have been served. And you're saying your name, and "This is Mayor, Mr. He's-in-trouble," and you give their name, and you have a video proof that these documents were served. You can post it in the chat room, and then if you find in time that this crook, he hasn't resigned his post, well, we're going to let the Special Forces know.

Pisceess Girl: Perfect, thank you. I know there's going to be a lot of questions on that, so I just wanted to give clarification.

Q. Sammy Girl: Can the birth certificate part be revisited, we could not hear clearly, and I need my husband to understand? Thank you.

A. Eric: You're welcome. Do you want to know something about the Birth Certificate? Then I think that I have to send Ginger a short clip where everything will explain how it works, what we found out is that the Birth Certificate at the City Hall will be registered. It's like a promising note for the bankers. And the promising note goes by Swiss to the Swiss Bank. It's your weight in gold, what they get. We found out with the Birth Certificate that you're going, what we found out in Europe, everything is going by the IRS in America. It's that someone who buys a house and gets insurance, first house, like \$300,000, that the bank goes with a Promissory Note called Postal Transfer Gold, and they earn more than seven times those money and that means that they're printing money, but there is no money. And you take the original monopoly, and you take Article F, the rules, that's exactly how money is working. There's money, they're printing money, but there is no money. It's very difficult but I have also a clip that I will send to Ginger that all explains how it works with the City of London, what is the role of the Vatican, what is the role of the Netherlands, and especially the Dutch High Bank. What we found out is that more than 47,000 banks are under the auspices of the Netherlands, the State of the Netherlands. What you see before,

the New York Bank in New York is the owner, the State of the Netherlands. If you take the Scotland Bank, who is the owner? The State of the Netherlands. What is the juridical capital of the world is The Hague. Who is the owner? The state of the Netherlands.

Pisceess Girl: Thank you. We'll go ahead and post for Sammy Girl or anybody else that wants more information on that. We'll go ahead and post the videos that will be coming our way.

Q. So Arizona Patriot and Tickled Angel want to know, will there be an election and how will this affect the U.S. elections?

A. Eric: I don't know about the U.S. elections. The only thing that I know is that I'm only searching where are the problems in the International Law. And that is why I make documents. And how that works, I don't know. I keep my answer. Sorry, I cannot answer, but I don't know.

Q. Pisceess Girl: Understandable. Let's see, the Wizard of Oz asks how to obtain the docs distributed. We already went through that. We'll go ahead and distribute all the documents. All the links and documents will be in the channel.

Q. Piscees Girl: How can we help with arrests lawfully with official backup and the process? I think we've gone over this too, but you might add to it.

A. Eric: I think that I send to Ginger a document, how that exactly explain how we're going to do that tomorrow morning. And that they can, from the Telegram group, exactly know what to do and how to do it. I have to ask Frank to write this paper. And he's not online, I see. Yes, I'll give the answer in a few hours. You get the answer online.

Ginger: And reminder, the documents have already been posted in English twice on the main channel. Please avail yourself to what's already been shared. And it would be really nice if you wouldn't ask our Admins to PM these things to you folks. Please do not ask for admins to do for you what you may do for yourself. They have been posted two times and they've basically gone viral. Look, use the resources here, please. Other languages, we will post them tomorrow. They've already been sent to me in French, Italian, Spanish, Portuguese, et cetera. We will launch them on the channel tomorrow.

Eric: Thank you, Ginger.

Piscees Girl: Thank you, Ginger.

Jean-Claude: Can I say something? We have made the Order to the Military to arrest the people. We don't know what the Military is going to do with it, but we've made the Order. We are Postmaster, so we can give the Military the Order. We did that and now we have to wait until they do that. That's what's happening. So, the document is special because we have given the Order to arrest the criminals and now the Military is going to decide when they do it. It's their work, it's not our work to arrest people. We don't want any more dead people, so don't go arrest yourself. The Military will do that. That's the meaning of these documents. All the genocides and crimes they committed, we've written in the document and now they can see what they have done. That's original our job to do, so we make documents, and we don't know when they're going to do it. That's my opinion about it, so we just have to wait. It's very big, it's 6,000 years slavery and we have to be free. So, the Military needs time and that's what I see about it, so we have to wait till we're free. And we're going to be free. That's for real. Thank you.

Piscees Girl: Thank you.

Q. Juicy Fruit: Does this law apply to local school boards?

A. Piscees Girl: Yes, it does. I mean, somebody else can intervene if I don't answer this correctly, but any school board official that is not bonded, will need to step down as well. So yes, the school boards are included in this.

A. Eric: If they have to need education to learn the real law and how it's real works, that is what I always said. A lot of people are misled, and they get training. They get to school and think from “Okay, now I know what is real, but not everyone is wrong.” We have to make also a decision for, okay, who did bad? Who did not bad? Are they misled or mislead by the elites to train something? It's not easy sometimes to make decisions on what is right, what is wrong. It's for us also difficult to make the right and good choice for the world.

Ginger: And I want everyone to know that in our Freedom Forum earlier today, Eric, Postmaster General Judge of the world, did say that he has personally observed the Military

making arrests. He was extremely confident and has already seen movement. We did see a question that someone asked. Eric, Jean-Claude, Frank, are you aware of anyone, in your knowledge, have you heard of anyone who has indeed resigned yet since October 17th? Our listeners would like to know.

A. Eric: We had 44 warrant arrests of top elites, all delivered by the Military, and what we see is from different countries, one and a half year back in time, the President of Portugal has resigned his job. After that he disqualified, and the arrest warrant was signed by three Postmasters, also in high rank, and after that he resigned, they put him in jail. What a lot of people don't know is that Portugal is one of the most important countries in the world, and it has to make with the Holy Mary. The Holy Mary, Fatima, and her three children, she is pure, without sin, without value problems, and what they did is that the Vatican in 1910, 1917 had the black nobility take a coup in Portugal. Portugal is the land for all sovereignty and freedom for the whole world, and that is not what the Deep State want. When you see William Alexander, the Royal of Orange, but officially he may not use the word Orange from his real name is William von Amsberg. His father and also his grandfather were two high ranking SS officers under Adolf Hitler. And what we also found out is that the Vatican, I thought it was 2010 or 2012, they closed the doors in the Vatican, two doors, where people coming from all over the world to the Vatican to ask God for forgiveness. I thought that it was Pope Franz, the German Pope Franz, he closed the doors, and he told the people have no rights to ask forgiveness to God. I think this is crazy. What happened in 2014, all archbishops and cardinals from the whole world were appointed to come to Rome, to the Vatican, and they had in July and September 2014, a holy decree in the chapel, where they declared Satan as the one and true god of the whole world. How crazy is that? Have we done a real religion that called Vatican that declared that god is Satan? And I think this is not good. And it's not God, it's Lord God. We are all together we are all the same. That's the energy from Lord God. It's to share love and family. And that is what the wrong people in the government is doing is break family, take them off each other. No, we have to come together, not everyone, "You are doing okay, it's your choice, you are not sure." No, we have to bind together, we have to stand as one team. And that is not what the government wants. And that is what I also said, 'Where we go one, where we go all.' We

have to connect together, and that is the power. That's We the People, and that is not what the government wants, the bad governments.

Q. Pisces Girl: Thank you, and there is a question on here, too, “How do we know which government officials we need to deliver this to? Are they all bad?”

A. Eric: What we do in the Netherlands since three years, you have the seed of a tree or fruit. Plant the seed by the employees. Go and speak with them, talk with them. What is happening? And that is get them out of the mind control. They know only from, okay, I have school education, I have to learn this is correct, this is not correct, this is how it works, this is not how it works. It is a big, big system what is rolled in years and years in the system of the people, from 1933 when the first bankruptcy started with the House Joint Resolution 192. They started the elites, BlackRock, Rockefeller, Bilderberg. What started in the Netherlands has a lot of power, and the bankers and they talk to each other, “Okay, how we get the people under control?” What they said is give them games and bread, like in the Roman time. You have the arenas, football, you have the Olympic games. That is how you bring people together. That is control. Give them PlayStation. Give them iPhone 14 or maybe model 16, I don't know. Make it lucrative for them and they spend money, they spend money. Is that correct? No. Now it's important to, and that's what we also do here with police officers in the Netherlands and with employees who are working at state governments or local governments. And in the beginning, you see that they get like a crash in the brains from, whoa, what are you telling? This is not correct what I'm doing? And you go, no, it's not correct what you are doing. And you're going to explain from, do you really do law? We found also here in the Netherlands of law that the government makes that all employees are no longer have immunity. They are from private law turned back in public law. That means that every sanctions and actions they're doing against a living person, they are responsible for their actions. And I don't know how it is in America, but in Europe they did this, that means that we have found out till 31 December 2014, we are all in a credit position like a living person. And what they did is that they made a switch on old and new to 1 January 2015. It's that they bring us in a debtor position and the government's going to a creditor position for saving their position in the government, and it's not correct. And you see also with the ballots fraud, what's happening in America. We

also found out that Dominion servers are standing in Amsterdam, but was helping with the fraud in 2020. And I cannot understand that there's still nothing happening in America about to expose the whole fraud. Now you see on Fox News and RSN that they found ballots, there's a fraud again, a fraud again, and I think, "Why it takes so long, why four years? What is the problem? Why not earlier?" I cannot understand it. That's a crime. You have the right to vote and get a real president, but this is not a real voting system. It's a crime. And I don't know if something happens or not, but this year also in this country. It's a crime.

Q. Pisces Girl: Thank you, Eric. **JB Real** wants to know, why is this information not more widely known in other Truther circles?

A. Eric: The information is just like a few days finished. We have not the time to get it earlier online and to spread it worldwide. There's a lot of work. My bed, where I sleep, most of the time I don't see my bed. I'm almost 17 to 18 hours a day behind those documents. And then walking outside, drinking a cup of coffee, sometimes sleeping, and I'm only working to find out what's really happening and then I have other Postmasters who are telling me, okay, what action do we now have to make? What's now? Also my girlfriend and okay now we have to do this, we do that, but we can. It was not earlier to bring it out, now we have to bring it out with this. We had also the problem is that we make the document. We had four laser printers, the scholar printers, and on the moment that we almost finished the document and we want to print the documents out, the first printer, error. Don't work. The second, same problem, the third, same problem. It takes four and a half days to print the documents out, more than 25 sealed documents. We are ready, we send all the track and trace that we can bring worldwide. All the documents are gone, we put the printers on, we go with print, and all the documents normally comes out of the printer, the color laser printers. But on the moment that we make the documents, all crash, nothing works. And then we know from, okay, we are on the right path. This means that we have something from God, Lord God, that He said "Okay, you have something in hand," but we feel that the dark side, the elites with energy, don't want. That's the document going worldwide, and that gives us power, okay. That's your problem, but we speak from

our heart, we bring the light, but these documents have to spread worldwide, and we do it. That's how it works, and what we do.

Q. Pisces Girl: Eric, there are several questions regarding the EAS, the emergency alert system. Will this process have anything to do with that and the government officials that are stepping down? Is this the start of NESARA?

A. Eric: When you see the timeline, what's happening, and I see the documents and I talk with some Postmasters, then it looks like that this document could be one of the documents that is necessary to get the ERS or EBS, what people say. I think, yes, it's possible.

Q. Pisces Girl: And then is this the start of possibly NESARA, where the government officials have to step down?

A. Eric: A few questions back also asked me this, and then I told NESARA / GESARA, I don't know how that really works. I see a lot of information. I stopped with this information once I see too many different answers and opinions coming out, "Now it's happening, now it's happening," and I think, okay, it's happening, but I don't see anything. I don't know what's really NESARA / GESARA, what is going on happening. The only thing that I'm concerned is that the crimes have to be punished. And that's my concern, and that's why I make the documents with a team of Postmasters to stop the crimes against humanity. That is my concern, and that is what we now do.

Q. Art Queen asks "Who will run the government in the interim if all these government officials are arrested and having to step down?"

A. Eric: I don't know how it works, but what I suggest, that all governments will stand on a Military justice. My idea is that the first five years, all governments on a Military justice until there is a good new government who reigns for free people. What I think is my vision is, before all is turned around, it takes five to ten years. It's not from, okay, we're now free now, they are arrested, and tomorrow it's gone. That's not how it works. You must see that a whole generation have mind control with wrong information, and they don't know better than this is okay, this is not okay. What is not okay means it's okay and what is okay means officially it's not okay. They have to change their mind control and to look totally,

completely, totally different to do the situations. And what I see with the free people is that we have a big job and I think in the next few weeks there will be the second point is that if something is coming back, something will happen. And it is important that we help each other and if you hate somebody, okay, okay. It's good, but learn, and that's the highest Word of God, Lord God, learn to forgive. Forgiveness, give to someone is the highest good you get from heaven, from the universe. And in a situation, what's going to happen, we don't know how the situation is going to happen. And we also talk to each other also in the Postmasters, our group, if you have to flee, there's something happening. Like I don't hope there are falling rockets, or something else, then we can by each other, going in the houses and we help each other. But also, people who need it, who not have the money, who are poor or people living on the street, give them love, see them as family, but they also not have ask for these problems.

Q. Pisces Girl says A5trQ asks: Is Russell J. Gould the Postmaster for the USA and will we be hearing from him?

A. Eric: The only thing that I can tell is that David Wynn Miller and Russell J. Gould, did in 1999 go to the Supreme Court after that President Bill Clinton was to Yugoslavia. That was the third bankruptcy. And they claimed the corporation flag of the corporation flag, and if you see the corporation flag and most people know that's the 13 stripes and a lot of stars. The 13 stripes is the 13 states that are under command of the United Kingdom, of the ministry of, I don't know the name, the ministry of, they had a ministry what they have control about the countries they captured in outside lands, and there was a total panic. He had the flag capture of the corporate, but the corporate, yeah, it's multinational, it is big, it is the whole world where you're talking about, and it's about the flag. What we have as Postmasters is that we are speaking, and also have the appointment that we speak the Word of our Lord God. And that Word, what we speak is higher than the Vatican. That is what we bring outside. And that's also what we also tell every time, you have Lord God, and you're standing under Him, but between Lord God and you, nobody can stand in between. There's no police officer, no court judge, no Military, and if somebody wants to help you, then he stands next to you, not behind you, but next to you. And that is rule number one of the Universal Law is love and family, have each other love and family.

But if you go to court, what's happening in English court is that the judge tells you, do you understand me? And that means if you say “yes,” just understand me, that means you are standing under me. I am the boss, I can make you punishable for your crimes or for something else and that's not okay. It's the world languages, they misuse for the people. That in short, because Russell has the corporation flag, and the Military knows it, and they have also made the post contracts and we have a higher law, it's the Universal Law, the Nature Law, the Divine Law, the Positive Law and this is for the whole world, for all the people. Yes, and he is for the corporation, and we are for the free people. We are not an organization, but we are an appointment that it is recognized by the wrong corporations. We see it also here in the Netherlands, that two years back, I gave lessons in the Postal Law, and somebody calls the police, 80 Special Forces came in with heavy weapons, but I was telling everyone, okay, if you say police or Military, this is the real official law, that you have to tell them, et cetera, et cetera. And two weeks later, I got the chief of police at my home, and also with some police officers, and they are telling me from all the groups in the Netherlands who are using the Postal Law, “It's all coming from you.” And I tell them then I see this as a compliment once I can, my heart can only speak the truth and not what you are doing to make the people under slavery, that's not correct. Yes, there's a lot shifting going on, a lot happening, but we have to stand up together and do it as one.

Ginger: Just to share, our dear esteemed guests are in the Netherlands and they began at 1 o'clock in the morning their time, so we're now getting to 3:00 in the morning, 4:00 in the morning, and I've been at this since 7:00 or 8:00 this morning, just all focused on prepping for the call, gathering information, and I'm really tired. So I think it best that we invite Eric, Frank, Jean-Claude, CK, would you all be willing, may we reconvene, may we have a Part 2 of this conversation, perhaps on Sunday night or this coming, pardon me, I could do Saturday night, Saturday evening, would that be acceptable? And we can go over more of these questions. May we do that?

Eric: Yes, no problem. Yes, of course.

Piscees Girl: And Ginger, what I would do as well is we can go through all the questions in the room. We can sort through them. There's a lot of repeat questions. So we can just go

ahead and kind of clean that room up and get some questions that have not been asked or answered, and we can just ask when we revisit this another night.

Ginger: Exactly the idea. So, anyone who's already posed your question, do not be dismayed. Do not be discouraged. Your voice is being heard. I want you to know that our Admin team has attentively and lovingly captured all of the questions throughout the day. We have one set space, they've gathered them all and then as the questions are answered, they're deleting them or checking them off with an emoji that this has been covered. So don't be dismayed that you're still questioning and you're still curious and wondering. We love you. We want you to feel strengthened during this time. We want you to feel equipped with knowledge and understanding. We want you to know how to pray intelligently for these events so you're going to be handheld some through this transition and bringing awareness. Somebody asked earlier why don't other groups have this information? Why is this just coming out now? And Eric brilliantly explained, well, listen, this just literally happened days ago, I mean, this is really raw. And he's acknowledged that people have been arrested. He said people have resigned. There is already movement in these few days. But the reason you got it so fast, folks, is because of my connection with the Military Alliance and my friendship and camaraderie with Jean-Claude. He got this to me the day of, on October 17th, and then I had time to share on October 17th in Chronicles of an Ambassador Part 17. Go back and listen, and Chronicles Part 18, gosh, was it two days later? We added more to the conversation, I guess it was the 22nd, 21st, it's been a busy week. So please listen to those conversations. Get undergirded with the truth and the facts. It's because our channel's connected with the Military Alliance that you got it faster. And now they want it rolling out to Patriots everywhere. The Military's asking kindly Patriots leaders, use your influence, use your TikTok videos, use your Instagram, use your podcast to talk about the documents, explain them and how these papers can be served. Any final remarks before we close this call?

Jean-Claude: Yes, first of all, we're going to explain what colors you need to sign the papers. That's very important and how we can get a stamp from the post office so that you bring it to them. You need the signature and the stamp from the post office if you bring the papers there. And email, you can ask if they send something back then get it. Then you

have a confirmation that you send it to them. That's official when you send something by email, you get something back that you have sent it to them. Then you delivered your Post just like when you deliver your Post at the Post Office you get a stamp and a signature and a date on it and the colors are very important. Nick asked me to ask this again, what colors do you use and explain it to the people what colors they have to use to sign their papers. That's very important for the next time, we can explain that. Thank you.

Ginger: Well, I want to thank everyone again for their patience and understanding the technical glitches posed by Telegram. Thank you for coming back after that little hiccup and we will have an audio recording tomorrow. We will also have a PDF in English which you then can translate in your native language. We love you and at this time we're closing Postmaster General Judge conversation, a Global Mandate, October 23rd, 2024, 10:05 PM ET we're signing out. Good night, everyone.

“Love is the source of life”

Dear Reader,

Facts of some important actions carried out by a team of [INTER]national Postmasters from 2020 to date:

-1: October 2023 visit to the Vatican and presented a document to the Pope, with which the sovereignty of the world population had to be quickly secured, this all had to do with the Balfour Declaration that expired on October 30, 2023, this is the first step taken, that the WHO did not become the boss of the world's citizens in order to enslave them completely, because a citizen (straw man = fictional creation on paper and has a digital registration) so simply explained, he cannot write, talk and read and a living human being, breathing and consisting of living flesh and flowing blood, who is protected by the twelve (12) universal human rights...; and

-2: October 2024, the alarm bells are ringing again due to worrying reports from America that they have now found something to push through what was previously unsuccessful, this can also be seen worldwide in the resistance against local, regional and national governments. On September 22, the United Nations quietly signed a treaty to initiate a global transformation to place the world under one government and designate all living people as global citizens and then place them with an AI computer that prints your fingerprint, facial recognition and eyes biometrically recognized and then falls under a social credit system. An AI that then determines whether you can still go shopping, cross the border on holiday or whether you will be placed in a re-education camp against your will. All your rights are thus taken away. As postmaster, we have taken action on this because the silent treaty has full legal force for the 'Elite UN/UN' after thirty (30) days and that has been stopped and corrected retroactively, but we are not quite there yet. We will give you all a shortened English version for yourself, with which you can say to the government after signing, this is not what we want, your UN - EU - WHO - Bilderberg - WEF and so on rules are not my rules, which you submit to me as living woman or man has not asked permission...; and

The shortened document (English) has been specially created for you as a living person to object to the local, state and national government that you do not agree to place yourself as a world citizen under a social credit system; and

To legalize the document yourself as a living person, go to the last page:

- In the middle below the word **General Executor**, write your name in full small letters with a **red pen** (first name, baptismal name and last name) and diagonally to the right as an example: **barbara john, smith** (write diagonally and together) and do you have a red stamp box then you make an imprint on your first name with your thumb, with which you seal your **DNA blood seal** with **red ink** on your legalization as **General Executor**; and
- Write your **signature** on the left with a **Green Pen**. That is your **natural-law** right sealing as a living human being; and
-
- Write above in red ink **:COPY:** above your letter; and
- Send the copy by post, email or personally deliver to your local, provincial, national government and their employees, National politics or General Affairs, Health care, Police, General Practitioner, Municipality, Province, etc. (ordinarily you keep it at home).

Past nations, religions whose civilization also existed; Before the first symbol was spoken, words or thoughts were ever spoken by our ancestors; Before there was even material existence, the idea of existence existed in the form of what we call Lord-God, the Universal, the Absolute, the ALL, the Divine Unique collective consciousness; and

It is to this united and special power that we and our ancestors have prayed. It is this, truly and absolutely Divine creator who has conceded trust to all ‘Homo Sapiens’ certain irrevocable rights and obligations in perpetual remembrance as trustees for all life on earth. That no man, woman, entity, person, or higher spirit may lawfully hinder, revoke, or claim such rights above all others; and

But for all given, bestowed and delivered to us by the Divine Creator as our birthright, we have allowed others to be deceived for generations into believing that we are inferior, we are incompetent and unworthy. Instead, we prayed that a day would come when the deepest meaning of our existence and knowledge of ALL would be revealed; that a day would come when we would see an end to our fears, suffering and war; that a day would come when by divine forgiveness the war in heaven would end; and

Whoever has ears, let them hear; he who has eyes, let them see; this day has come. The veil has been lifted! Death and fear have been conquered by ‘CAUSAL-AUTHORITY’ the Divine, the One, the ALL has made this statement and covenant known. We hereby regain our birthright as lawful heirs on behalf of all matter and existence witnesses to the divine TRUE of words set forth in this most sacred covenant of all covenants. That no man and woman being higher Catholic or other Religious, living or dead, can deny his authority, his power and validity; and

WE, THE ONE, THE ONE CREATOR OF ALL, THE ALPHA AND OMEGA, THE ABSOLUTE DIVINE, THE UNIQUE COLLECTIVE CONSCIOUSNESS OF ALL MEANING, TITLES AND OBJECTS, EXPRESSED IN LIFE TRUST AND DREAM KNOWN AS ‘UCADIA’, ALSO KNOWN AS THE ONE TRUE UNIVERSE: with respect and compassion for the prayers and presentations by all higher Catholic and other Religion life and spirits, hereby command by our absolute embodiment,

Royal Greetings from the Maharlikhan Tribes, the Filipino People and the rest of the World for Peace-Unity, Diversity and Prosperity!

The time has come and the time is **NOW**, that the suffering of the world must come to an end! The "Treaty of Paris", C.C. 3975p of Royal Decree Protocol from the Crown of England, O.C.T. 01-04, Decided in 1764-1965, a two hundred (200) years of Administration of the Civil Government, has come to its final end, **CEASED TO EXIST!**

To reckon, the Capitol Constitutional Convention, Continental Congress, George Washington, Revolutionary War, Thomas Jefferson, "TREATY OF PARIS" (sic), Allow me to quote in toto on the first paragraph to wit:

From here, September 14, 1786, the Annapolis Convention issued the call to the state that led to the Constitutional convention."

Following the Peace Treaty in 1898, and the cessation of territorial rights of the Existing Sovereignty to U.S.M.G. in the surrender of the Spanish troops, The Treaty of Peace between the United States and Spain (TREATY OF PARIS) was signed on Dec. 10, 1898, and came to force April 11, 1899, Article 3 specified "Spain ceded to the U.S. the Philippines in the Peace Treaty. - (3) MISDIRECTION. What the eyes see and the ears hear, the mind believes.” Misdirection takes advantage of the functionality and limits in human consciousness in order to give the wrong picture. In social engineering, this is to produce a false image and memory for recall and construction of secondary subjective reality for a basis of living. The modern “magician” (manipulator, sorcerer) uses this perceptual restriction to manipulate the audience’s sensory input and ideas about reality, leading them to draw false conclusions about what actually occurred in reality, in actuality, in Truth. One of the most important things to remember when thinking about misdirection and “magic” is this: a larger movement conceals a smaller movement. This is how the social engineering media of shaping the collective public mind is used to direct our attention away from more important worldly matters; and

Your declaration of a State of Emergency for the COVID-19 diagnosis criteria for a series of pneumonia and influenza related symptoms and the allegations of the existence of a “novel coronavirus” is based on assumptions that are false; and

1. According to the International Committee on Taxonomy of Viruses' (ICTV) Coronaviridae Study Group (CSG) publication on March 2, 2020, the preliminary data suggesting that there was sufficient variation to determine this as a novel virus vs. a mutation of known coronaviruses was not based on established scientific principles but was responsive to the World Health Organization's prior unfounded declaration of novelty of both the virus and a new disease; and
2. There could be no independent verification of the epidemiologic models predicting dire infection and mortality rates as the underlying models and data were not published, and when sought, were reportedly corrupted so as to make their examination impossible; and
3. In violation of State law, no medical or scientific evidence was provided to establish causal links between the SARS CoV-2 and the symptoms of COVID-19 relying instead on foreign government hearsay and conjecture; and
4. Since 2003, the U.S. Department of Health and Human Services and their subordinate organizations – the National Institute of Allergy and Infectious Diseases (NIAID) and the Centers for Disease Control and Prevention (CDC) – maintained a patent preventing any independent organization from testing for the presence of coronavirus transmissible to humans through 2018 resulting in a complete lack of testing technologies; and
5. No State official reviewed for accuracy or veracity any of the causal statements made in the Declaration of Emergency which contain false, misleading, and terror inducing statements; and
6. In violation of well-established legal precedent from Jew Ho v. Williamson, 103 F. 10, 26 (C.C.N.D. Cal. 1900) and subsequent public health law, arbitrary and capricious rules were insinuated on part of the population that were not applied generally resulting in the unlawful confinement of a healthy population with no basis in science; and

7. The Governor failed to provide adequate testing to confirm or deny the presence or absence of “a novel coronavirus” and, based on recent reports from testing of incarcerated persons reported by Reuters, 96% of prisoners testing positive for coronavirus are asymptomatic demonstrating a failure to establish even a statistical link between the virus and the disease; and

8. Neither the Governor nor any public health officer has followed evidence-based, peer-reviewed, clinical science showing that neither social distancing of up to 6 feet of separation nor the wearing of masks has any clinical effect in a healthy population and that instituting such policies is exclusively for the inducement of terror in the population; and
